### Problem-Solution Fit Canvas:

The **Problem-Solution Fit Canvas** is used to analyze the needs, challenges, behaviors, and limitations of the target users of **EduGenie – AI Powered Educational Assistant**. It helps identify the key learning problems faced by students, self-learners, and educators, and ensures that the proposed AI-powered solution effectively addresses these challenges. By understanding user pain points, learning behavior, available alternatives, and root causes, the team can design a customer-centric educational platform that provides intelligent question answering, simplified concept explanations, AI-generated quizzes, educational text summarization, and personalized learning recommendations, resulting in a more interactive, efficient, and personalized learning experience
