Project Name	EduGenie Google Gemini Powered Learning Assistant
Maximum Marks	4 Marks

Empathy Map

Empathy Map helps the team understand the needs, goals, challenges, and emotions of the primary users of **EduGenie**, such as students, self-learners, and educators. It captures what users **Say, Think, Do, and Feel** while learning and preparing for exams. By understanding their experiences and pain points, the team can design an AI-powered educational assistant that provides accurate answers, simplified concept explanations, AI-generated quizzes, educational text summarization, and personalized learning recommendations. This user-centric approach ensures that EduGenie offers an interactive, efficient, and engaging learning experience.

• SAYS	THINKS • Am I studying the right topics for my exams? • There should be an AI tool that makes learning easier. • I need a structured learning path to improve my skills.
	PERSONA NAME NITISH – College Student & Self-Learner

DOES

- - Searches Google and YouTube for explanations.
- - Reads online notes and watches educational videos.
- - Practices quizzes and revises notes before exams.

FEELS

- - Confused when information is scattered across multiple platforms.
- - Stressed during exam preparation because of limited time.
- - Motivated and confident when learning becomes simple, organized, and interactive.
